

Enrichment Afternoons

Building Blocks as developed an afternoon curriculum to enrich our preschoolers learning experiences. We offer a number of unique and challenging afternoon activities that incorporate math concepts, literacy, motor skills, science, foreign language, and the creative arts.

	<p>MUSICAL MONDAY</p> <p>Each Monday, music, movement, and dance will be explored. The children explore various musical instruments, listen to all types of musical genres and create music of their own.</p>
	<p>TASTY TUESDAY</p> <p>Literature based cooking experiences are on the menu for Tuesday. Children have the opportunity to follow recipes and create tasty treats. Literacy, fine motor and basic math skills are the focus.</p>
	<p>WACKY WEDNESDAY</p> <p>On Wednesday, hands-on science activities provide children with endless opportunities to learn. Hypothesizing, problem solving, and cause and effect relationships are explored.</p>
	<p>TALENTED THURSDAY</p> <p>Each child's individual creative interests are explored on Thursday. Visual art, music, story telling, and drama activities extend literature-based learning.</p>
	<p>FAR AWAY FRIDAY</p> <p>Children will learn and experience places around our world. Adventures including cultural celebrations, literature, art, music, foreign language, and food will be explored. Each child's cultural heritage will be incorporated into activities.</p>
