

TRADITIONAL PRE-SCHOOL PROGRAM 2007-2008

Wednesday, September 5, 2007 – Wednesday, May 28, 2008

At Building Blocks Pre-School and Daycare Center, our belief is that children learn through hands-on experiences that allow them to explore, manipulate, and create. Your child is welcomed at his/her stage of development and will be encouraged to continue his/her development individually. Play offers children the opportunity to explore new ideas, practice making choices, feel competent and in control, interact with others, and fine tune new skills. Activities that are based around the creative arts (music, art, and drama) contribute to the physical, social, emotional, intellectual, and creative development of the child. We believe that children co-construct their learning by following the children interests. Our mixed age grouping of children ages 2 ½ - 5 is intended to increase the heterogeneity of the group so as to capitalize on the differences in the experience, knowledge, and abilities of the children.

Our traditional preschool program follows the Huron Valley School Districts Academic Calendar. Three different payment plan options are available. The traditional preschool students join our Child Care Preschool class which is a mixed age group consisting of children ages 2 ½ to 5 years old. Children are not required to be potty trained. Children enrolled in any of our Preschool programs at Building Blocks must be 3 years old on or before December 1, 2007.
